

# *Spray Finishing*

## Contents

Introduction.....	1
Chapter 1: To Spray or Not to Spray.....	4
Advantages of spray finishing.....	6
Other considerations.....	8
Chapter 2: Choosing a System.....	10
Conventional spray guns.....	13
Air sources for conventional systems.....	23
HVLP systems.....	28
Air sources for HVLP systems.....	31
Chapter 3: Setting Up a Spray System.....	38
Spray booths.....	38
Spray rooms.....	46
Open rooms.....	48
Air sources.....	50
Safety equipment.....	64
Chapter 4: The Basics of Spray Finishing.....	68
Thinning the material.....	68
Filling the gun.....	74
Selecting the fluid tip and air cap.....	76
Adjusting the gun.....	77
Spraying: general techniques.....	80
Troubleshooting.....	89
Chapter 5: Coloring the Wood.....	90
Dye stains.....	92
Pigmented stains.....	98
Gel stain.....	100
Paint.....	100
Pigmented lacquer.....	104
Chapter 6: Working with Top Coats.....	108
Lacquer.....	108
Conversion finishes.....	112
Shellac.....	114
Water-based finishes.....	118
Oil-based varnishes.....	125

Chapter 7: Specialty Applications.....	126
Shading and toning.....	126
Specialty painting.....	132
Using spray cans.....	134
Spraying contact cement.....	136
Chapter 8: Cleaning Up.....	138
Which solvent works best?.....	141
Cleaning a spray gun.....	144
Cleaning a pressure-feed system.....	148
Gun lubrication.....	150
Troubleshooting.....	152
Spray schedules.....	158
Glossary.....	162
Index.....	164
