

MFT/3-Kapex Product Tour

FESTOOL

Perforated plate

Multiple clamping surface with special mounting holes for Kapex.

Ergonomic work surface height

Basic version, with optimized height 31 1/8" (790 mm).

34 7/32" x 22 7/8" (869 x 581 mm) work surface.

Tension knobs

Knobs are now placed further from the side of the MFT/3. Protects your most valuable tools - your hands.

Folding legs

Foldaway legs allow you to adjust to one of two working heights. With the legs folded, the table is easy to transport and stow away..

V-groove

NEW feature for the multi-function tables. Works with the angle stop and angle unit. Future accessories will work with the v-groove system.

Leveling foot

One leg can be adjusted to accommodate uneven surfaces, while keeping the table level.

T-Slot

System integration. Works with Festool clamps and clamping elements to secure a work piece for routing, sanding, or sawing.
